Professional Summary

Results-driven Front End Developer with a strong track record of architecting scalable web applications and delivering high-impact solutions for enterprise clients, including NTT DATA and HCL Technologies. Specializing in React, modern state management, and performance optimization, I excel at reducing technical debt and building robust UI components. Highly experienced in remote, cross-functional international environments, I bring a contractor mindset focused on rapid onboarding, strict code quality through modern unit testing (Jest, React Testing Library), and aligning technical deliverables with business goals.

Work Experience

Front End Developer

Contrader

2025 — Present

Italy (Remote)

- Engineered a scalable frontend architecture capable of handling complex, simultaneous data streams for real-time industrial telemetry
- Optimized state management by transitioning from complex `useEffect` chains to efficient Recoil selectors, reducing redundant render cycles by 40% and eliminating Cumulative Layout Shifts (CLS)
- Developed comprehensive analytics dashboards using Recharts, enabling operators to identify bottlenecks and decreasing average time-to-resolution for system faults by 25%
- Implemented modern testing strategies (TypeScript, Vitest/Jest) to ensure the high reliability of critical data-handling components and edge-case logic

Front End Developer

HCL Technologies

2023 — 2025

Italy

- Accelerated the development of HCL's flagship product (Bigfix) by rapidly onboarding and delivering critical features within the first week, boosting team velocity by 15%
- Orchestrated UI enhancements in collaboration with a US-based team, developing a reusable React component library that improved interface quality and consistency by 20%
- Conducted 2-3 detailed PR reviews weekly in an Agile environment, enforcing strict coding standards, syntax, logic, and performance best practices
- Streamlined project execution across diverse global teams, achieving a 25% improvement in cross-team collaboration efficiency

Front End Developer

NTT DATA

2022 — 2023

Italy

- Maintained a strict zero-defect rate for multiple enterprise projects in the highly-regulated banking sector, demonstrating extreme attention to detail and quality assurance
- Expedited project timelines by rapidly developing key components for an online course customer journey, resulting in a 30% faster time-to-market
- Implemented a rigorous suite of unit, integration, and end-to-end tests (Jest, React Testing Library, Protractor), reducing post-deployment bugs by 40% and increasing code reliability
- Collaborated on resolving a critical Jenkins CI/CD build pipeline issue, identifying the root cause under tight deadlines and ensuring a 100% successful recovery

Skills

- Languages & Core:** JavaScript (ES6+), TypeScript, HTML5, CSS3, SASS
- Frameworks & Libraries:** React, Next.js, Angular, Vue, Tailwind CSS, MUI, Bootstrap
- Testing & QA:** Jest, Vitest, React Testing Library, Protractor, E2E Testing
- Tools & Architecture:** REST API, Recoil, RxJS, MongoDB, Docker, Git, Jira, CI/CD (Jenkins), Chart.js, Recharts
